## GOV. BARNES SAYS SO.

*Flynn and U's Tax Rate Getting Along Nicely, so He Says.*

Governor Barnes was in Kansas City last night on his way to Chicago, but stopped long enough to tell a reporter for the Journal that Flynn will be elected. The water in Kansas City has a murky, muddy appearance and people from Oklahoma don't like to drink it and the Governor is like the others in that respect. After an Oklahoma man has been in Kansas City for a few hours and persistently refuses to drink water he very frequently is afflicted with a strong desire to magnify everything he undertakes to raise or describe.

The governor wouldn't, if in his usual clear condition of mind, think of asserting that Flynn would be elected or that the moon was made of green cheese but doing without water for some hours in Kansas City, brings about that condition above referred to a condition in which the victim is often helpless and irresponsible and it is likely that he made use of the statement that Flynn would be elected and perhaps asked for a cracker and a piece of the moon in the moon's bread. Flynn will smile when he reads the governor's interview for Flynn has been in Kansas City, Washington, and Ellenton himself and he knows the effect of doing without water so long. It is to be hoped that the readers of the Journal's interview won't abuse the governor for saying what he did about Flynn and the tax raise. Flynn can't forgive his exuberance for talking Flynn and the tax raise in the same breath but the rest can. This tax raise business is something Flynn would like to avoid in this campaign and it is real crying in the snow. Barnes harness the doughy Flynn and the Oklahoma tax raise up together, and this oversight on the governor's part must be attributed to the lack of water also.

The treatment for worms must be prompt and safe. WHITE'S CREAM VERMIFUGE can be trusted to restore your child to health. It is a tonic as well as a worm destroyer. Every bottle guaranteed to bring worms. 25c. F. B. Little & Co.

## OUR BOYS NOT IN IT.

*The Riot at Camp Hamilton Was Not Participated In by the Oklahoma Regiment.*

A riot occurred at Camp Hamilton near Lexington, Ky., Oct. 9, in which two soldiers were killed and several other wounded, and it was reported that the Oklahoma boys took part in it. The Lexington Leader investigated the affair and printed the following account which relieves the territorial volunteers from any responsibility.

The following is the Lexington Leader's article:

The members of the First Territorial Regiment feel deeply regretful that they should be mentioned as being implicated in the troubles at Camp Hamilton on Monday night and the Leader gladly makes a statement for their benefit which will set them in the proper light before the people of Lexington, Kentucky.

A leader reporter yesterday afternoon visited the camp of the First Territorial Regiment and met Col. Myron H. McCord, a most affable gentleman, who pleasantly related all that occurred during the exciting times of Monday night in which his men were alleged to have taken an active part. Col. McCord was Governor of Arizona Territory at the breaking out of the Spanish war, and resigned that position to go into the army, fully expecting that his regiment would be among the first of the volunteers to be sent to Cuba. He said that on Monday night five of his men were out of camp after dark, and that the usual quietude existed in all the companies at the time the riot occurred at the railroad station, which is several hundred yards from where the regiment is located at Camp Hamilton.

The relations existing between the members of the twelfth New York and the territorial regiments is most pleasant, but they very rarely meet. They would join in and violate the military as well as the civil law. The men comprising the territorial regiment are as a general rule intelligent and picked of the very best material in the western country, and they would not engage in any rioting which would cast discredit upon their commanding officers as well as themselves. Col. McCord is a soldier who knows what to do and when to do it, and commands the respect of all the men of the regiment, and they would not be guilty of committing a breach of discipline which would cast a word of censure to be expressed against them.

On Monday Capt. Roy V. Hoffman was officer of the day, and he said to the reporter that on Monday afternoon as is the custom after pay day, every man in each company was searched for weapons, not in expectancy of any trouble, but as a safeguard to prevent any difficulty between the men should they go into the city. In the thorough search made only five weapons were found in possession of the men of the regiment, and Capt. Hoffman was in a position to know if any of the men in his command were involved in any difficulty, and he is proud to say that in all the camp things were as quiet as usual, and cannot imagine how the report was started that the territorial boys were joined with the twelfth New York in overthrowing the military authorities.

Capt. Robert Lowery was officer of the day, yesterday, and he made the statement that the men of the regiment were conducting themselves in their usual good order, and were not the rioters and rascals which it was attempted to make them out.

The reporter paid a visit to the men in their company streets during the afternoon and found them all to be pleasant and affable. They deeply regretted that statements had been made which set them in a bad light, not only before the good people of Kentucky, but of their home section and anxiously asked to have the erroneous reports corrected. They all said that the citizens of Lexington and Kentucky had shown them true Kentucky hospitality ever since their arrival and that it would be most ungrateful in them to far forget themselves as to act ungentlemanly among their hosts. As to their taking part in the rioting, the men indignantly deny this, and say that nearly all the men of the regiment were in their quarters at the time of the occurrence, and did not in any way participate in disorder. They are anxious that an investigation be held and that the world will know exactly how they conducted themselves during that troublesome night.

Lieut. Gordon L. Finley, of Company K, whose tent is in the center of the camp, says that the conduct of the men during Monday evening was such as to make every officer feel proud of them and that no disorder of any sort occurred among them. The officers of the First Territorial Regiment are eagerly sought after for promotion, and a number of them have been selected to serve on the staffs of various commanders since their arrival here. Lieut. Morris and Lieut. Terrell have been made aides on Gen. and Drums' staff, and Lieut. O'Rourke has been selected to join Gen. Breckinridge's staff. This service will for the season in which the Territorial boys are held by the high commanding officers.

**Roy F. Cashion Monument Fund.**

As stated in the LEADER several days ago, an effort is being made to collect enough funds to build a monument in Hennessey to the memory of Roy F. Cashion, the boy soldier, who was the first from Oklahoma to fall in the battle of San Juan. Contributions to this fund will be opened all over the territory, so we are informed. Guthrie ought to raise \$25. Sums of any size, from a dime up, may be paid to the bookkeeper in the LEADER office, and the names of the donors and amounts will be published.

**Alva Pioneer:** On last Monday evening our community was startled by the arrest of E. H. Coulson, deputy county clerk, on the charge of falsifying and altering records.
